A Considered Approach to Aesthetic & Surgical Care

Not every treatment should be performed.
Not every concern requires intervention.
And not every patient benefits from doing more.

At Royal Lytham Rejuvenation, care begins with clinical judgement, honest advice and thoughtful planning.

The role of the clinic is not simply to provide procedures, but to guide each patient carefully toward the option that is genuinely appropriate for them — and to advise against treatment where it is not in their best interest. Every recommendation is shaped by safety, suitability, anatomy and long-term wellbeing.

Trust is not created through persuasion. It is earned through discretion, integrity and results that feel natural, balanced and entirely your own. If a treatment is unlikely to benefit you, that will always be said clearly.

REJUVENATION

Carefully Managed UK & Turkey Patient Journey

For patients considering treatment in Turkey, Royal Lytham Rejuvenation provides a trusted UK point of introduction and clinical guidance before any decision is made.

This partnership approach is designed to give patients greater clarity, reassurance and continuity — combining the convenience of UK-based consultation with access to treatment pathways in Turkey where appropriate.

Dr Asif Sange

Your UK Pre-Introduction with Dr Asif

Dr Asif acts as the UK pre-introduction point for patients at the start of their journey.

- This early stage is intended to help patients:
- Discuss concerns and goals in a calm, private consultation.
- Understand whether treatment is likely to be appropriate.
- Receive honest, measured guidance before making further commitments.
- Ask questions about planning, suitability, expectations and next steps.
- This process helps ensure that decisions are made carefully, not quickly.

It also provides patients with a more considered and medically guided route into treatment, rather than a purely sales-led enquiry experience.

Where treatment in Turkey is appropriate, the pathway is introduced with attention to safety, communication and continuity of care.

Turkish Specialist Expertise

A trusted Turkish plastic, reconstructive and aesthetic surgeon, partnering with Royal Lytham Rejuvenation to provide carefully planned, specialist-led care for patients considering treatment in Istanbul.

Educated at Istanbul University Cerrahpaşa Faculty of Medicine and trained in plastic, reconstructive and aesthetic surgery at Cumhuriyet University, Dr Ali Ertan Çapar brings more than a decade of specialist experience in both reconstructive and aesthetic procedures.

Plastic, Reconstructive & Aesthetic Surgeon
Istanbul, Turkey

A carefully coordinated patient pathway between Royal Lytham Rejuvenation in the UK and specialist surgical care in Turkey

He is an active participant in national and international plastic surgery congresses and maintains membership of key professional bodies, including the Turkish Society of Plastic, Reconstructive and Aesthetic Surgery, ensuring his practice remains aligned with contemporary standards and peer-reviewed expertise.

Within the Royal Lytham Rejuvenation partnership, Dr Çapar serves as the senior Turkish-based surgeon for selected aesthetic and reconstructive procedures, working closely with the UK team to ensure that patient selection, planning and follow-up remain cohesive, safe and clinically led across borders.

For the patient, the value of the UK–Turkey partnership is structure: an initial point of trust in the UK, access to experienced specialist care in Turkey, and a pathway shaped around discretion, planning and informed decision-making. This supports a calmer and more medically guided experience than a purely remote or sales-led overseas enquiry route.

PATIENT JOURNEY

The finest results rarely look obvious. They simply feel right.

Aesthetic and surgical care should feel calm, private and carefully considered. Each stage of the patient journey is designed to support clarity, confidence and refined outcomes that never appear overdone.

Private Consultation
A confidential conversation focused on your concerns, your priorities and the features that should remain unmistakably yours.

Considered Assessment
Careful review of anatomy, health, lifestyle and expectations, so recommendations feel measured, suitable and clinically sound.

Thoughtful Planning
A bespoke plan shaped around proportion, balance, softness and longevity — enhancing with restraint, never excess.

Procedure & Aftercare
Discreet clinical treatment, clear recovery guidance and attentive follow-up, supporting comfort and reassurance at every stage.

Royal Lytham
REJUVENATION

Safety and clinical standard

The safest aesthetic care begins long before any procedure takes place. It begins with judgement. Who is suitable. What is proportionate. What is necessary. And what is best left alone.

True expertise is measured not only by what can be done, but by what should not be done. Every step of care is planned to protect the patient, the result and the trust placed in the clinic. Measured care is safer care.

The Royal Lytham Standard

Suitability First
Only treatments that are appropriate for the individual patient are recommended.

Anatomy-Led Planning
Proportion, balance, healing and risk all guide decision-making.

Evidence-Informed Decisions
Clinical reasoning comes before trends, pressure or unnecessary intervention.

Clear Expectations
CBenefits, limitations, recovery and likely outcomes are explained with honesty.

OUR SERVICES & PRICING

Naturally Refined Care, Thoughtfully Tailored

Every treatment recommendation is considered in relation to proportion, individuality, safety and long-term wellbeing.

The aim is never to change what is distinctive, but to refine with care and restraint.

Facial Rejuvenation
Restoring freshness, balance and definition while preserving natural expression.

Breast Surgery
Carefully planned with respect for proportion, comfort and natural form.

Body Contouring
Measured refinement designed to support balance, confidence and lasting wellbeing.

Hair Restoration & Non-Surgical Care
Clinician-guided treatment focused on subtle improvement without over-treatment.

BEGIN WITH A PRIVATE CONSULTATION

Every patient journey should begin with clarity, discretion and carefully considered advice. At Royal Lytham Rejuvenation, consultations are designed to give you the time, space and specialist guidance needed to make informed decisions with confidence.

Whether you are considering surgical care, non-surgical treatment, or a UK-led introduction to treatment planning abroad, every recommendation is made with your safety, suitability and long-term wellbeing in mind. Private, thoughtful care begins with the right conversation.

OUR COMMITMENT TO PATIENTS

To recommend with honesty.
To plan with care.
To prioritise safety.
To preserve natural individuality.
To deliver refined outcomes with discretion and integrity.
